IRS 501(c)(3) Public Charity

STRATEGIC OVERVIEW

MISSION

To build, equip, and sustain the community infrastructure that nonprofits, service organizations, and the individuals they serve need — connecting people to funding, aligning service delivery with workforce development, and producing measurable community impact at every level of need.

VISION

A nation where every community organization has the data, technology, and partnerships to turn passion into lasting, provable impact — and every person has a structured growth pathway from their first moment of need to contributing in their community.

EXECUTIVE SUMMARY

ThriveUp Academy / TCAF is a national community-infrastructure platform and the nonprofit for nonprofits — 15 public-facing service platforms, a 5-trade workforce simulation and credentialing engine, a live grant intelligence system tracking 721 opportunities, 24+ federal benefit program pathways, a dedicated rural equity suite, and agriculture tools — all under a single integrated architecture built to serve any U.S. county. Organizations use ThriveUp to discover funding, train and credential their workforce, measure outcomes, and demonstrate impact. Individuals use it to navigate benefits, build careers, access health services, and track growth through the ALIGN framework. Piloting in Travis County, Texas through a two-entity structure (TCAF 501c3 + ISS LLC SBIR/STTR-eligible) with a Hub Adoption Kit ready for 50-state replication.

PROBLEM

For Nonprofits

Most CBOs lack grant intelligence, outcome measurement tools, and implementation-science frameworks to compete for federal funding and prove impact. Technology is expensive, siloed, English-only.

For Rural Communities

Rural counties face broadband deserts, hospital closures, agricultural economic stress, and connectivity gaps — while funding programs (USDA ReConnect, FQHC, FSA) go unclaimed from lack of navigation tools.

For Individuals & Families

People navigating housing instability, workforce barriers, health disparities, justice involvement, and family crisis cycle through services without a growth pathway or documented progress.

For Funders

Funders see activity, not movement. Without a shared growth language and cross-sector outcome framework, community investment cannot demonstrate longitudinal transformation.

MARKET OPPORTUNITY

Market Size

1.5M+ U.S. nonprofits. 40M+ Americans in poverty. \$50B+ annual federal community development, workforce, health, and justice funding. \$4.5B WIOA. \$9.8B Title IV-E. \$3.5B USDA Rural Development.

Policy Drivers

SDOH equity mandates. FHIR interoperability. USDA rural broadband investment. DOL equity workforce agenda. Family First Prevention Services. AI literacy for workforce. Rural health access.

Funding Landscape

HHS, DOL, DOJ, HUD, USDA, NSF, VA, DOE, SAMHSA, HRSA, CDC. State: HHSC, TWC. Private: RWJF, Annie E. Casey, W.K. Kellogg, JPMorgan Chase, St. David's Foundation.

Timing

Post-COVID recovery infrastructure investment. Funder shift from activity to evidence. Growing demand for cross-sector frameworks. SBIR/STTR expansion. Rural equity investment surge.

STAKEHOLDERS

Individuals & Families:	Adults navigating housing, workforce, health, justice re-entry, foster care, and family crisis — served in 107 languages and dialects including AAVE, Spanglish, and signed languages.
Nonprofit Organizations:	CBOs, faith communities, CHW networks, workforce programs, and social enterprises — using TCAF to find funding, train staff, prove outcomes, and connect to an ecosystem.
Rural & Agricultural Communities:	Farmers, farmworkers, H-2A visa workers, rural residents facing hospital deserts, broadband gaps, and FSA program complexity — served by 6 dedicated rural tools and ag-specific pathways.
Government Agencies:	City/county human services, state workforce and health agencies, federal grantmakers — using TCAF data for accountability, co-investment, and service delivery.
Researchers & Evaluators:	Implementation scientists, university partners, think tanks — using CFIR/RE-AIM/EPIS tools and outcomes data for publication and policy influence.
Funders & Philanthropists:	Foundation program officers, federal grant officers, impact investors — using ALIGN community dashboards and TCAF evidence packages to understand community transformation.
Shadow Workers:	Informal caregivers, promotoras, peer mentors, driveway journeymen — credentialed and stipended through the Integration Through Invitation (ITI) model.
Industry & Employers:	Healthcare systems, equity-committed employers, CDFIs, apprenticeship sponsors — accessing workforce pipeline, credential data, and hiring tools.

PROGRAMS & PLATFORMS

THE 15 PUBLIC-FACING SERVICE PLATFORMS

HEALTH EQUITY

Whole-Person Health (WPH)

Behavioral safety floor. PHQ-9, GAD-7, C-SSRS, PCL-5, ACES validated instruments. Longitudinal SDOH screening.

CIVIC ENGAGEMENT

Talk Your Talk (TYT)

talkyourtalk.net — 89 spoken + 18 signed dialects = 107 total. AAVE, Spanglish, ASL, LSM honored. RTL layout for Arabic/Hebrew.

HEALTH / COMMUNITY

Sankofa Network

Cultural health platform rooted in African heritage. Bridges clinical services and community wisdom traditions.

HEALTH EQUITY

Black Maternal Health Network

Maternal health navigation, doula/midwife directories, prenatal screening, maternal mortality risk reduction.

HEALTH EQUITY

Black Men's Health Hub

Preventive care, mental health, and navigation resources specifically designed for and by Black men.

HEALTH EQUITY

HerHealth Network

Holistic Black Feminine Health Hub. 70-condition coverage. CDMRP-aligned. Integrative health and reproductive justice.

BEHAVIORAL HEALTH

SafeCogniCare

Cognitive health and dementia navigation. Caregiver burnout screening. Family resource routing.

DISABILITY / IDD

Perfectly Different

Disability and IDD platform. Accessibility-first. SSI/SSDI navigation. Self-advocacy tools.

SDOH NAVIGATION

LifeBridge

SDOH navigation hub. 9+ benefit programs screened per session. Warm referral handoffs. ALIGN on-ramp.

VETERANS

Mission Transition (M2C)

Military-to-civilian. Benefits, employment, housing, and SDOH navigation. SSG Fox VA pathway integration.

COMMUNITY

Minority Center of Excellence

Technical assistance hub for minority-serving orgs. Grant readiness, data literacy, SBIR/STTR navigation.

YOUTH / EDUCATION

ISSS

Integrated Supports for Thriving Youth. Multi-agency case management. 50-state foster care policy comparator.

RESEARCH

RPLICE / BetterScience

Research-to-Practice Lifecycle. CFIR/RE-AIM/EPIS tooling. MAP-GAP CQI. Outcomes reporting dashboards.

CLINICAL / BH

SafeReport

safereports.net — Compliance-grade AI for clinical settings. FHIR/CDS-Hooks. 0-PHI-egress. HITL-default-on.

CIVIC ENGAGEMENT

Civic Signal

Civic engagement, advocacy tracking, policy navigation. Community voice. Election and policy information hub.

RURAL EQUITY SUITE — 6 DEDICATED TOOLS

TCAF is one of the only community platforms with a dedicated rural infrastructure stack. Six tools specifically built for rural counties facing hospital deserts, broadband gaps, agricultural stress, and USDA program complexity.

Rural Workforce

NFJP-eligible pathway finder. Career mapping across 10 tracks (technical, conservation, ag, health, energy, market). State-by-state training resources. 18 states with FIPS codes.

Rural Health

Farm stress crisis lines. FQHC finder. Hospital closure risk scores. Telehealth access mapping. Maternal care deserts. Rural health grant navigation. 35 states covered.

Rural Intel

County-level intelligence dashboard. Typeahead search by county name or FIPS. Poverty, workforce, health, and infrastructure data. Gap analysis for funders and planners.

Rural Connectivity

FCC broadband availability checker. USDA ReConnect eligibility. Community Facilities grants. Service desert scoring. Cell coverage alternatives. GPS-coordinate-level analysis.

Rural Housing

Rural housing program navigation and screening. USDA Section 502/504 direct and guaranteed loans. Self-help housing. Rural rental assistance programs.

Rural Alerts

Real-time rural emergency and resource alerts. Agricultural disaster declarations. USDA program deadline alerts. Community Facilities grant announcement notifications.

AGRICULTURE & FARMWORKER TOOLS

FSA Eligibility Engine

USDA Farm Service Agency program eligibility logic. Row crop, livestock, conservation, and specialty crop programs. State and county office routing.

Farm Profitability Tools

Enterprise budgeting, input cost analysis, market access pathways, crop insurance navigation.

Farmworker ITI

Integration Through Invitation for seasonal farmworkers and H-2A visa workers in English and Spanish. Rights navigation, wage theft resources, housing assistance.

Farm Cooperative Navigator

Cooperative formation guidance, shared equipment pools, value-add processing pathways, USDA cooperative development grants.

Producer Voice

Input cost crisis, market access barriers, climate stress — farmer and rancher advocacy and data tools. Structured voice channel for ag communities.

Agricultural Trade Sims

Ag-specific simulation modules. Conservation practices, precision agriculture tools, soil health modeling.

CHILD CARE FUNDING & WORKFORCE TOOLS

Child Care Workforce Hub

\$9.3B annual TX productivity loss from child care gaps (US Chamber, 2022). \$12.7B annual US employer cost (Council for a Strong America, 2023). Workforce training and credential pathways for child care providers.

Wilco Child Care Hub

North Wilco Childcare Coalition workspace. CCAMPIS strategy. Travis/Williamson County enrollment targeting. TWC-CCS coordination.

North Texas Child Care

Regional child care needs mapping. Provider directory. Quality improvement pathways. Child Care & Development Fund (CCDF) navigation.

WAB2 Enrollment Hub

Multi-factor eligibility + enrollment engine. Travis County (80 target), Williamson County (350 target). Pflugerville corridor. CCAMPIS and ARPA remainder fund alignment.

TRAINING · EDUCATION · RESEARCH · TECHNOLOGY

TRAINING & SIMULATION — THRIVEUP ACADEMY TRADE SIMS

5 industry-grade physics simulations, 15 lessons each (75 total), AI tutoring in 10 languages, credential routing at 80% completion. Real physics calculations — not animations.

ELEC

Electrical

Modified Nodal Analysis (MNA) DC Solver — Standard undergraduate EE
Credentials: OSHA 10 · IBEW/NECA · NCCER L1

AUTO

Automotive

MNA via Adapter (component-defs.ts) — Reuses EE solver — engineering-clean
Credentials: ASE G1 · OEM Tech · NCCER

PLUM

Plumbing

Hardy-Cross Newton-Raphson Flow Solver — Standard civil/mechanical pipe-network
Credentials: TSBPE · UA pathway · NCCER L1

WELD

Welding

Heat-Input Evaluator per AWS D1.1 §5.7 — American Welding Society Structural Code
Credentials: AWS SENSE · AWS D1.1 · Iron Workers

HVAC

HVAC

Thermal-Airflow Engine — Thermal equilibrium + duct flow model
Credentials: EPA 608 Universal · NATE RTW · SMART

Credential routing fires at 80% completion — in production at server/trade-sims-cert-routes.ts. 9 certifications: OSHA, NCCER, AWS, ASE, EPA, NATE, TDLR, TSBPE. 2–3 registered apprenticeship pathways per trade.

EDUCATION — THRIVEUP ACADEMY LEARNING ENGINE

Live Economic Simulation

academyWallets, academyStocks, academyPortfolios — real market simulation. academyCompetitions for gamified cohorts. academyMerchOrders for real fulfillment. academyPantherPower GAM-ready merit scoring.

Branching Narrative Scenarios

academyScenarios + nodes + logs: interactive branching stories for FAFSA, foster care, workforce decisions. Full behavioral audit trail for research and outcome reporting.

AI Literacy + STEM

AI-ready workforce training modules. Computational thinking. Data literacy. STEM pathway planning aligned to workforce demand in local labor markets.

Financial & Civic Literacy

academyLifeLessons: financial literacy, civic engagement, SDOH navigation, health literacy. Behavioral audit trail (academy_choice_logs). Full outcomes record per learner.

FAFSA & College Access

FAFSA navigation, financial aid literacy, college application support. Chafee / ETV for foster youth. Scholarship search with AI fit-scoring. 50-state policy comparator.

PM Academy

Project management training for nonprofit and community leaders. Grant management, outcome tracking, team coordination, and stakeholder communication skills.

TRADE SIMS: RURAL OFFLINE STRATEGY & LOCAL LABOR MARKET ALIGNMENT

PWA Offline Mode (Q4 2026)

Trade simulations will be packaged as a Progressive Web App (PWA) with service-worker caching — enabling full offline operation on Android/iOS without an app store. Physics engines (MNA, Hardy-Cross, AWS D1.1) run entirely client-side in JavaScript — no server call required mid-lesson. Designed for intermittent connectivity: sync on reconnect, local completion log.

Local Labor Market Integration

Trade Sims credential routing will integrate live BLS Occupational Outlook + TWC/TRACER local job posting APIs for Travis and Williamson Counties (Q2 2027). Credential completion automatically routes users to active local apprenticeship openings (IBEW, UA, SMART, ABC) — not generic listings, but openings matching the completed trade and county.

Hardware-in-a-Box (Rural Hubs)

For zero-connectivity rural training sites (fields, correctional facilities, remote tribal lands), TCAF's Hub Adoption Kit can include a local Raspberry Pi or Intel NUC node serving the PWA over LAN. No internet required. Designed to USDA Community Facilities grant specifications.

Employer Demand Alignment

Employer partners pre-register target credentials and openings. When a learner completes a simulation at 80%+ threshold, a warm handoff notification fires to the registered employer contact. Closes the credential-to-hire gap within the platform.

RESEARCH & IMPLEMENTATION SCIENCE

CFIR 2.0 — 39 Constructs

5 CFIR domains, 39 constructs operationalized in research-hub.tsx. Standards-routes.ts maps capabilities to NRRC and CFIR 2.0 fidelity benchmarks.

RNR / CBI / NRRC — Justice

Risk-Need-Responsivity, Cognitive Behavioral Intervention, and NRRC outcome reports. Gold standard in criminal justice corrections. Recidivism baselines tracked over time.

RPLICE Bridge

Auto-routes analysis findings to relevant platforms (BH findings !' SafeReport). Cross-platform intelligence. Grounded in active-commitment docs, not generic web.

RE-AIM + EPIS

RE-AIM community-level evaluation at THRIVE phase. EPIS org readiness (Exploration !' Preparation !' Implementation !' Sustainment) across ALIGN phases.

MAP-GAP CQI

1,705-line continuous quality improvement engine. Identifies and prioritizes ecosystem gaps. Drives funder recruitment and partner coordination decisions.

Outcomes & Evidence

Funder-grade outcome dashboards. NRRC outcome reports. Evidence Registry (communityEvidence table). Platform-Funder fit table (platformFunderFit). Donor outcome receipts.

AI STACK — WE DON'T USE AI. WE ORCHESTRATE IT.

4-Engine Collaborative Synthesis

Gemini 2.0 Flash · Claude Haiku 4.5 · GPT-4o-mini · OpenRouter DeepSeek R1. Resilience architecture: any engine outage doesn't break the session. All calls auto-wrapped in Ethical/EI Preamble.

107-Language Dialect-Aware Translation

Preserves AAVE, Spanglish, and regional dialects. RTL layout for Arabic/Hebrew. Socratic-hint + ensemble-debrief AI tutor modes. 10 languages in Trade Sims.

86-Chunk RAG Engine

Grounded in TCAF's own active-commitment documents. Relevant platform docs, evidence registry, and grant intelligence feed the knowledge base — not the generic web.

AI Grant Intelligence

Tier-weighted keyword scoring (e.g., 'PHI-safe' +10, 'HITL' +12) + semantic AI fit-analysis. 721 grants tracked. Weekly digest. AI proposal drafting + RFP fidelity compliance matrix.

ONE ARCHITECTURE — NOT 15 SEPARATE CODEBASES

A common funder concern: 15 platforms sounds like a maintenance nightmare. The reality is the opposite. All 15 platforms share a single PostgreSQL schema (271 tables), a single Express/Node.js API (84 route files), and a single React/Vite frontend codebase. Each 'platform' is a modular UI configuration — a themed entry point and curated feature set — layered on top of one unified data architecture. Adding a platform is additive, not duplicative. Every new platform reuses the same benefits screener, ALIGN journey engine, grant intelligence system, and ITI consent layer. This is a single product with 15 community-facing surfaces, not 15 products.

PLATFORM SCALE (PRIMARY-SOURCE VERIFIED, 2026-05-22)

271	Drizzle/PostgreSQL tables
211	Frontend pages
84	Server route/logic files
721	Grants tracked across SAM.gov, Grants.gov, USASpending.gov
107	Languages / dialects (89 spoken + 18 signed)
75	Trade simulation lessons (5 trades × 15)
39	CFIR constructs operationalized in code
24+	Federal benefit program pathways
6	Dedicated rural equity tools
15	Public-facing service platforms

FUNDING PATHWAYS — THE COMPLETE PICTURE

ThriveUp Academy navigates funding across every major federal agency and dozens of state and private streams. This is not a single grant pipeline — it is a comprehensive funding ecosystem covering individuals, families, organizations, agricultural producers, rural communities, veterans, justice-involved adults, and nonprofits seeking capital.

FEDERAL BENEFIT PROGRAMS — 24+ PATHWAYS FOR INDIVIDUALS & FAMILIES

Category	Programs / Tools	Lead Funder	Notes
Healthcare	Medicaid · CHIP · Medicare · ACA Marketplace · Healthy Texas Women · VA Health Care · IHS · Ryan White HIV/AIDS	HHS / CMS / VA	Screened per session via LifeBridge. All 50 states.
Food & Nutrition	SNAP · WIC · School Breakfast/Lunch · TEFAP · SFMNP	USDA FNS	Benefits screener. SNAP CPP focus group pathway active.
Income Support	SSI · SSDI · TANF · EITC · Child Tax Credit (CTC)	SSA / IRS / HHS	Integrated into benefits command center.
Housing & Energy	Section 8 HCV · HUD-VASH (Veterans) · LIHEAP · Weatherization · HOME Investment	HUD / DOE	Austin Housing Initiative + rural housing tools.
Child Care & Family	CCDF/CCDS · Head Start / Early Head Start · CCAMPIS · Child Tax Credit · Title IV-B/E	HHS ACF / DOEd	WAB2 enrollment hub. N. Wilco Coalition. Child care workforce tools.
Telecommunications	Lifeline · ACP (broadband) · E-Rate · USDA ReConnect	FCC / USDA	Rural Connectivity tool. FCC broadband availability checker.
Legal & Safety	Legal Aid (LSC) · VAWA housing protections · Elder Justice Act · DV shelters	DOJ / HHS	Safe Passage platform. LifeBridge routing.
Education / FAFSA	Pell Grant · FSEOG · Work-Study · Direct Loans · Chafee ETV · GEAR UP	DOEd	FAFSA Navigator. Foster youth Chafee/ETV routing.

USDA & AGRICULTURE FUNDING PATHWAYS

Category	Programs / Tools	Lead Funder	Notes
Farm Service Agency	CRP · ARC/PLC · ARCPCLC · Emergency Loans · Farm Storage Facility Loans	USDA FSA	FSA Eligibility Engine. All major program types.
Rural Development	Section 502/504 Direct & Guaranteed Loans · RBDG · USDA ReConnect · Community Facilities	USDA RD	Rural Housing + Connectivity tools.
NRCS Conservation	EQIP · CSP · RCPP · ACEP · REAP	USDA NRCS	Linked from Rural Intel + Farm Profitability.
Farmworker Support	NFJP (National Farmworker Jobs Program) · H-2A rights · MSFW services	DOL	Rural Workforce tool. Farmworker ITI. Spanish-language.
Value-Add / Cooperative	VAPG · RCDG · Agricultural Marketing Promotion	USDA AMS / RD	Farm Cooperative Navigator.

WORKFORCE & ECONOMIC DEVELOPMENT FUNDING

Category	Programs / Tools	Lead Funder	Notes
Workforce Development	WIOA Title I Adult/Dislocated · Title II Adult Ed · Perkins V · H-1B Training Grants	DOL ETA	Trade Sims credential routing. Workforce tools.
Texas Workforce	TWC Skills Development Fund · Self-Sufficiency Fund · Child Care Services (CCS)	TWC	Trade Sims + child care workforce tools.
Apprenticeship	Apprenticeship Building America (ABA) · ApprenticeshipUSA · IBEW/UA/ABC pathways	DOL	5 trades × 2–3 apprenticeship pathways each.
Small Business / SBIR	SBIR Phase I/II/III · STTR · APEX Accelerators (formerly PTACs) · SBA 8(a)	SBA / NSF / HHS	ISS LLC eligible. APEX Accelerator tool. Minority Ctr of Excellence.
Opportunity Youth	YouthBuild · Job Corps · Second Chance Pell · Workforce Innovation	DOL / DOEd	Opportunity Youth page. ALIGN Navigate phase.

HEALTH, BEHAVIORAL HEALTH & JUSTICE FUNDING

Category	Programs / Tools	Lead Funder	Notes
Behavioral Health	SAMHSA CCBHC · SOR · MHBG · SABG · 988 Suicide & Crisis	SAMHSA / HHS	SafeReport. Whole-Person Health. Healthcare Grants tool.
Rural Health	HRSA FQHC · Rural Health Clinic · RHCDS · FLEX Program · Telehealth grants	HRSA	Rural Health Hub. FQHC finder. Hospital closure risk.
Women's Health	CDMRP (PRMRP/PRCRP) · Merck for Mothers · Black Maternal Health Initiative	DoD / HHS / Private	HerHealth Network. Black Maternal Health platform.
Justice / Reentry	Second Chance Act · RSAT · JAG (Byrne) · Reentry Housing Vouchers · SCA	DOJ / HUD	Justice Command Center. RNR/CBI/NRRC stack. Reentry stipend pilot.
Veterans	SSG Fox Suicide Prevention · HVRP · HUD-VASH · VR&E Chapter 31	VA / DOL VETS	Mission Transition platform. SSG Fox active pursuit.

RESEARCH, INNOVATION & GRANT INTELLIGENCE

Category	Programs / Tools	Lead Funder	Notes
Implementation Science	NIH R01/R34 · AHRQ · PCORI · Promise Neighborhoods (84.215N) · NSF TechAccess	NIH / NSF / DOEd	RPLICE. NSF 26-508 LOI active. Promise Neighborhoods pursuing.
Grant Intelligence Engine	721 grants tracked · SAM.gov · Grants.gov · USASpending.gov · Foundation/Corporate	Multiple	Tier-weighted AI fit-scoring. Weekly digest. RFP Fidelity Engine.
Community Development	CDBG · SSBG · Promise Zones · Choice Neighborhoods · Social Innovation Fund	HUD / HHS	Ecosystem Hub. Coalition portal. Community map.
Technology / AI	ARPA-H · NSF SBIR · DARPA · Dept of Commerce CHIPS	Federal R&D	ISS LLC SBIR/STTR pathway. AI tools hub.

TRACTION · REVENUE MODEL · IMPACT FRAMEWORK · VALIDATION

CURRENT OPERATIONAL STATUS

Platform:	Operational — live at thriveup.app and lifetransitionsaid.org/thriveup/align
Deployment:	Active pilot — Travis County, TX (Williamson, Hays, Bastrop, Caldwell counties)
Entity Status:	TCAF 501(c)(3) determined 2026-01-14 · ISS LLC active · SAM.gov ACTIVE both entities
Partners:	Minority Center of Excellence · LifeBridge · SafeCogniCare · El Buen Samaritano · North Wilco Childcare Coalition
Grant Pipeline:	721 tracked opportunities · Fit "e70 = 208 · "e80 = 186 · "e90 = 160 · Active pursuit queue maintained
Codebase:	271 tables · 211 pages · 84 server files · 206 routes — all primary-source-verified 2026-05-22

HUB ADOPTION KIT — SUBSCRIPTION TIER ARCHITECTURE

The Hub Adoption Kit is TCAF's primary SaaS vehicle. Three tiers serve the full spectrum of community organizations — from emerging nonprofits to regional health systems and county governments. The 65% SaaS / 25% Intelligence Partner / 10% Data Licensing revenue mix below reflects Year 3 steady-state, not Day 1. Early revenue is anchored by the Enterprise tier, which generates \$42,000+ ARR per contract and establishes SaaS dominance without requiring high-volume self-service adoption.

Community Tier

\$0 / month

Emerging Nonprofits & CBOs

- ALIGN org assessment (3 cycles/yr)
- Grant screener — top 10 fits/month
- Benefits navigator — 9 programs
- Community THRIVE Index read-only
- TCAF support community access

Pro Tier

\$99 / month

Established Orgs & Grant Managers

- Unlimited ALIGN org assessments
- Full grant intelligence — 721 tracked
- AI proposal drafting + RFP fidelity matrix
- Trade Sim credential routing (1 trade)
- Outcome reporting dashboard
- Priority implementation support

Enterprise

\$3,500+ / month

Health Systems · Counties · Tribal Nations · CDFIs

- Multi-entity parent-child workspaces
- Centralized admin data governance + RBAC
- White-label Hub deployment under org branding
- Dedicated API access (IGN scoring, grant data)
- SAML/OIDC SSO · SOC 2 Type II fast-track
- Custom integrations (Epic, Salesforce GovCloud)
- 5 Enterprise contracts = \$210K ARR — exceeds Year 1 \$150K target independently

ADDITIONAL REVENUE STREAMS

A

Federal & Foundation Grants

HHS, DOL, DOJ, HUD, USDA, NSF, VA, DOEd, SAMHSA, HRSA, RWJF, Annie E. Casey, W.K. Kellogg, JPMorgan Chase. Multi-year grants. No single grant >40% of operating revenue by policy.

B

Government Service Contracts

Direct city/county/state contracts. Benefits navigation, workforce simulation, community health, SDOH navigation. NAICS 624190 primary. SDVOSB status unlocks VA sole-source set-asides.

C

SBIR / STTR (ISS LLC)

ISS LLC SBIR/STTR-eligible. AI tutoring, physics simulation, dialect-aware translation, and rural connectivity tools are Phase I/II candidates across NSF, HHS, and DoD.

D

Research Partnerships

University co-publication, ITI-consented data access, implementation science training. Overhead-eligible on federal research grants.

IMPACT FRAMEWORK

Inputs	Org assessments, individual journeys, benefits screened, program data, grant intelligence, workforce completions, rural connectivity data, farmworker ITI consents, research data — all ITI-consented.
Activities	ALIGN journey facilitation · benefits navigation · trade simulation + credentialing · grant intelligence + proposal writing · org capacity building · rural/ag tool navigation · clinical screening · coalition coordination.
Outputs	ALIGN phase advancement events · org capacity scores · benefits matches · credential completions · grants submitted · clinical screenings · community THRIVE Index scores · rural service desert reductions.
Outcomes	Individuals advancing from crisis to contribution · orgs increasing grant-readiness · practitioners credentialed · rural residents accessing unclaimed federal programs · communities reducing phase gaps.
KPIs	% individuals advancing "e1 ALIGN phase per 90 days · grant win rate · credential completions per quarter · rural program claims facilitated · org capacity score change · community THRIVE Index trend.
Unit Economics	Projected Cost per ALIGN Phase Advancement: \$180–\$220 (pilot phase, includes staff, technology, and data overhead). MAP-GAP CQI engine continuously identifies inefficiencies and routes to lower-cost interventions. Target by Year 3: \$80–\$120 per advancement as automation and scale reduce marginal cost. Benchmark: HUD Continuum of Care estimates \$10,000–\$50,000 per person housed — ALIGN identifies upstream intervention 12–36 months before housing crisis, compressing cost 40–200x.

VALIDATION STRATEGY & HITL COMPLIANCE SAFEGUARDS

Implementation Science

CFIR 39 constructs + RE-AIM community evaluation + EPIS org readiness. Standards-routes.ts maps capabilities to NRRC and CFIR 2.0 fidelity benchmarks.

Clinical Validation

PHQ-9, GAD-7, C-SSRS, PCL-5, ACES in SafeReport. FHIR/CDS-Hooks clinical interoperability. HITL-default-on for all clinical workflows.

AI Grant Tool — HITL Compliance

All AI-generated proposal content triggers a mandatory human-in-the-loop review step before any final document is exported (.docx, PDF, or submission package). The platform logs the reviewer identity, timestamp, and confirmation action for every export — creating an auditable compliance record. This insulates TCAF and partner organizations from FAR flow-down and regulatory liability in federal submissions. AI generates; humans approve; the log proves it.

Justice Stack

RNR assessments + CBI programs + NRRC outcome reports. Recidivism baselines tracked over time. Gold standard in corrections research.

Continuous Improvement

MAP-GAP CQI (1,705 lines) identifies ecosystem gaps. Quarterly data review. Phase transition velocity data improves resource recommendations.

Outcome Resolution Threshold

AI predictive funding intelligence is gated behind a 30% outcome resolution floor — the platform must have tracked enough real win/loss outcomes to make statistically valid correlation claims before activating predictive features. This ensures recommendations are scientifically defensible, not pattern-matched hallucinations.

ROADMAP · PARTNERSHIPS · RISK · INVESTMENT ASK

12-MONTH OBJECTIVES (2026–2027)**Technology**

Mobile offline PWA (Q4 2026). HMIS integration. Unite Us bidirectional referral sync. FHIR CDS-Hooks live clinical integration. 6th trade simulation. Rural tool API expansions. SOC 2 Type II audit engagement (Q2 2027). FedRAMP Tailored LI-SaaS readiness assessment (Q3 2027) — required for formal HHS/VA/DOL integration.

Research

First case study (Q3 2026). University research partnership signed. CFIR fidelity baseline published. NSF TechAccess submission. Promise Neighborhoods LOI.

24-MONTH OBJECTIVES (2027–2028)**Scale**

Hub Adoption Kit in 5+ additional counties/regions. 2 state government partnerships signed. Rural tool deployment in 3 additional USDA-targeted rural areas.

Revenue

\$1M+ ARR. Federal HHS/DOL agency recognition. GSA Schedule (ISS LLC). DOL/HHS pilot designation. Rural Development partnership.

Organizations & Users

50+ org ALIGN assessments. 500+ individual journeys. 5 Hub deployments initiated. SDVOSB certification filed. APEX Accelerator enrollment for partner orgs.

Revenue

First Hub licensing. 3 government service contracts. SBIR Phase I submitted. \$500K+ ARR target. Federal agency pilot designation.

Validation

Peer-reviewed ALIGN publication. Title IV-E Clearinghouse evaluation submitted. SBIR Phase II awarded. NRRC outcomes report published.

Platforms

3 additional platforms. SafeReport Epic integration live. RPLICE national IS community launched. USDA partnership for rural tools.

SDVOSB FAST-TRACK: MISSION TRANSITION AS THE VA PILOT VEHICLE

Dr. Flood is a medically retired U.S. veteran with a service-connected disability. Once SBA VetCert certification is complete (filing in progress), VA statute (38 U.S.C. § 8127) requires contracting officers to give Service-Disabled Veteran-Owned Small Businesses (SDVOSBs) first consideration — bypassing traditional competitive procurement cycles. MISSION TRANSITION (M2C) is the designated pilot vehicle for this pathway: a fully operational military-to-civilian navigation platform serving benefits, employment, housing, and SDOH. Mission Transition is positioned as a \$1–\$5M sole-source VA service contract immediately upon VetCert issuance, without waiting for a competitive grant cycle. No other platform in TCAF's portfolio has this acceleration pathway. This is not aspirational — the platform is live, the credentials are real, and the statute is clear.

36-MONTH VISION

- National: Hub Adoption Kit in all 50 states. Federal strategic partner — HHS, DOL, DOJ, HUD, USDA.
- SDVOSB: VA sole-source contracts up to \$5M — Mission Transition as first contract vehicle, immediately upon SBA VetCert issuance.
- Research: TCAF publication stream. National CFIR/RE-AIM training and certification program.
- Rural: USDA Rural Development formal partnership. Rural connectivity tool adopted by 3+ state broadband offices.
- Agriculture: NFJP partnership for farmworker training. FSA eligibility engine cited in USDA grant proposals.
- Revenue: \$5M ARR — grants, contracts, Hub licensing, research, SBIR.

PARTNERSHIP OPPORTUNITIES**Federal Funding Partners**

HHS, DOL, DOJ, HUD, USDA Rural Development, NSF, VA, DOE, SAMHSA, HRSA, CDC, ACF.

Research Partners

UT Austin, Texas A&M, Morehouse School of Medicine, Howard University, RAND, implementation science institutes.

Government Partners

Texas HHSC, Travis County, City of Austin, TWC, HUD, DOL ETA, AmeriCorps, SAMHSA, ACF, USDA RD.

Foundation Partners

Robert Wood Johnson, Annie E. Casey, W.K. Kellogg, JPMorgan Chase, Lumina, Gates Foundation, St. David's Foundation.

Technology Partners

Epic (FHIR), Salesforce.org NPSP, Unite Us, Microsoft Azure AI, AWS Nonprofit, Socrata/Tyler, USDA GIS.

Community + Industry

Faith networks, HBCUs, tribal nations, promotora networks, CHW associations, apprenticeship sponsors (IBEW, UA, ABC, Iron Workers, SMART).

RISK MANAGEMENT

- Risk:** Grant funding concentration

Mitigation: No single grant >40% of revenue by policy. Hub licensing + government contracts diversify base. Two-entity structure enables SBIR/STTR streams.
- Risk:** Community data trust

Mitigation: ITI: 8 consent layers, all defaults OFF. Full data portability. Zero PHI egress. Witness log available to all contributors.
- Risk:** Rural adoption barriers

Mitigation: 6 dedicated rural tools, Spanish-language farmworker ITI, and USDA-aligned grant pathways address rural-specific adoption friction.
- Risk:** Adoption resistance from platforms

Mitigation: Complement positioning — TCAF fills the gap existing platforms leave (growth tracking + grant intelligence + rural tools). Not a replacement.

SEED ROUND STRUCTURE

Target Raise \$750,000 – \$1,200,000 Instrument: SAFE (Simple Agreement for Future Equity) or Priced Seed Equity Capital Efficiency Signal Fully operational platform — 271 tables, 211 pages, 15 platforms — built with zero external capital. Every dollar of this raise deploys against proven architecture.	Current Capitalization 100% Founder-funded to date. Zero external debt. Dr. Flood maintains 100% equity control — optimizing decision velocity through the Founding Cohort launch. ARR Acceleration Math 5 Enterprise contracts (\$3,500/mo each) = \$210,000 ARR — exceeds the Year 1 \$150K ARR target entirely independent of self-service Pro tier volume. Just 4 contracts = \$168K ARR.
--	---

USE OF FUNDS — \$1M BASELINE

40% Customer Success & Founding Cohort \$400K — 1 dedicated FTE to manage 10–15 org onboarding. Keeps retention near 100% and feeds real outcome data into the learning loop.
25% Engineering \$250K — 1 FTE engineer: SBIR/STTR pursuit module, mobile PWA offline, automated email notifications (Resend), SOC 2 prep.
20% Sales & Channel \$200K — Enterprise client acquisition: VA CoE network, SBDC networks, regional CDFI white-label integrations, SDVOSB pipeline.
10% \$100K — IRB design and university co-publication track. Keeps predictive metrics scientifically defensible for federal funders.
5% I \$50K — OpenAI GPT-4o, Anthropic Claude, SAM.gov/Grants.gov data syncs, PostgreSQL hosting, CDN.

MILESTONE TIMELINE

●	Month 3	Founding Cohort Live 10–15 organizations fully onboarded. ALIGN org assessments baseline. ITI consents active. Real outcome data flowing.
●	Month 6	\$50K ARR + SBIR Module 50+ active Pro users. SBIR/STTR pursuit module shipped. First government service contract signed. Rural PWA beta.
●	Month 9	SOC 2 Type II Engaged Audit engagement initiated. SDVOSB VetCert filed. First University research partnership signed. CFIR baseline published.
●	Month 12	\$150K ARR Exceeded 5 Enterprise contracts (\$210K ARR). First Hub license. 3 gov contracts. SBIR Phase I submitted. NSF TechAccess submitted.
●	Month 18	\$500K ARR + White-Label 5 Large Business white-label agreements. FedRAMP LI-SaaS readiness assessment complete. 2nd peer-reviewed submission.
●	Month 24	\$1.2M ARR + Series A Series A readiness. Title IV-E Clearinghouse evaluation submitted. SBIR Phase II awarded. NRRC outcomes published. 50-state Hub ready.

STRATEGIC ASK

- Capital: \$750K–\$1.2M SAFE or Priced Seed — anchored by 5 Enterprise contracts exceeding Year 1 ARR target on contract value alone.
- Pilot Participation: Organizations completing ALIGN assessments and sharing outcome data under ITI consent (feeds the 30% resolution threshold).
- Enterprise Partners: Health systems, CDFIs, tribal nations, county governments — white-label Hub Adoption Kit candidates at \$3,500+/month.
- Research Collaboration: University IRB partners for evaluation design, peer-reviewed publication, and framework validation.
- USDA Partnership: Rural Development office willing to formally adopt rural tools and farmworker ITI as official USDA-endorsed resources.
- SDVOSB Advisory: SBA and VA contacts to accelerate VetCert filing and unlock Mission Transition sole-source VA contract pathway.

Closing Statement

If ThriveUp Academy succeeds, every nonprofit in America will have what TCAF has: grant intelligence to find funding, simulation tools to train and credential a workforce, research frameworks to prove impact, and human growth tracking to show funders not just what they funded — but what changed. Rural farmers will find the USDA programs that go unclaimed. Farmworkers will navigate their rights in their language. Communities will have the evidence to demand the investment they deserve. The nonprofit for nonprofits. Built from community. Powered by data.

APPENDIX: LEADERSHIP · FEDERAL CREDENTIALS · ENTITY STRUCTURE

LEADERSHIP

Name:	Terry D. Flood, Ph.D.
Title:	President, The Collaborative Advocate Foundation (TCAF) CEO, Integrated Services & Solutions LLC (ISS LLC)
Background:	Implementation scientist · Psychologist · Data engineer · Community health worker · User-centered designer. Medically retired U.S. veteran (service-connected disability, MS). Active U.S. Government Secret-level clearance.
Contact:	terryflood@thrivingcommunitiesforall.com · 254-319-8460
Address:	17912 Stefano Drive, Pflugerville, TX 78660-7020

FEDERAL ENTITY CREDENTIALS (PRIMARY-SOURCE VERIFIED VIA SAM.GOV)

The Collaborative Advocate Foundation (TCAF)

Legal Name:	The Collaborative Advocate Foundation · Name Control: THEC
EIN:	41-3618003
501(c)(3):	Determined 2026-01-14 · Public Charity §170(b)(1)(A)(vi)
SAM UEI:	KDDVD1FGLW35
CAGE:	209N1
SAM Status:	ACTIVE through 2027-05-06
Eligible For:	Federal grants, foundation grants, state grants, nonprofit set-asides, SDVOSB (pending)
NAICS:	624190 (primary) · 624229 · 923120 · 611430 · 541611 · 541690 · 541720

Integrated Services & Solutions LLC (ISS LLC)

Legal Name:	Integrated Services & Solutions LLC
EIN:	87-2795417
Entity Type:	For-profit LLC
SAM UEI:	C7YDV3P8EHL7
CAGE:	9VKK3
SAM Status:	ACTIVE through 2027-03-30
Eligible For:	SBIR/STTR, GSA Schedule, for-profit set-asides, government service contracts
SDVOSB:	SBA VetCert application in progress — Dr. Flood, medically retired, service-connected disability

TWO-ENTITY STRATEGY

TCAF (nonprofit) pursues grants, foundation funding, and nonprofit set-aside contracts. ISS LLC (for-profit) pursues SBIR/STTR, GSA Schedule, and government service contracts. Both entities share ThriveUp platform IP under a licensing agreement — clean financial firewall, maximum funding eligibility. Once SDVOSB certification is complete, VA statute requires SDVOSB set-asides first (Veterans First), giving TCAF/ISS LLC sole-source authority up to \$5M in services. This structure is unusual in early-stage community organizations and signals operational sophistication to federal program officers.
