---

## **EXECUTIVE SUMMARY**

Public health and systems strategy leader with deep experience operating at the intersection of healthcare, government, and enterprise transformation. Proven ability to translate complex strategy into executable operations across large-scale, multi-stakeholder environments.

Brings a systems-level perspective grounded in implementation science, value-based care principles, and real-world execution across federal healthcare systems, emergency management, and behavioral health. Known for driving alignment, accelerating decision-making, and delivering measurable outcomes in high-ambiguity environments.

Operates with a CEO-level mindset—prioritizing speed, accountability, and results over process for its own sake.

---

## **CORE CAPABILITIES**

- Strategic Execution & Operational Leadership
  - Executive Decision Support & Briefing Development
  - Cross-Functional Program Management
  - Healthcare Systems & Value-Based Care Alignment
  - Financial & Business Case Analysis
  - Implementation Science (CFIR, RE-AIM, EPIS)
  - Data-Driven Performance Management
  - Stakeholder Alignment & Governance
  - Organizational Transformation & Scaling
  - High-Stakes Communication & Facilitation
- 

## **EXECUTIVE OPERATIONS & CHIEF OF STAFF READINESS**

- Partnered with senior leaders across federal healthcare and defense systems to translate strategic priorities into executable initiatives with measurable outcomes
- Built and operationalized decision-support frameworks (MAP-GAP) to accelerate execution, reduce ambiguity, and improve organizational responsiveness
- Developed executive briefings, performance dashboards, and operational playbooks used to guide leadership decisions across clinical and operational domains
- Led cross-functional initiatives spanning healthcare delivery, behavioral health, emergency response, and workforce development

- Coordinated stakeholder alignment across clinical, operational, policy, and community partners in complex, regulated environments
  - Managed competing priorities and high-visibility projects with urgency, precision, and accountability
- 

## **PROFESSIONAL EXPERIENCE**

### **Public Health Social Scientist**

**U.S. Federal Government (VA + DoD) | 2017 – Present**

#### **Strategic Systems Design & Implementation**

- Designed and implemented enterprise-level frameworks integrating implementation science with operational execution to improve healthcare delivery and system performance
- Developed scalable decision-support models enabling leadership to align strategy, resources, and execution across complex environments
- Led initiatives focused on improving outcomes related to social determinants of health, behavioral health, and population health management

#### **Veterans Crisis Line (VCL) – Training & Operations**

- Trained and prepared crisis responders to operate in high-risk, time-sensitive environments requiring rapid decision-making and emotional intelligence
- Improved training systems and operational alignment to increase responder effectiveness and consistency across teams
- Supported execution of mission-critical operations where outcomes directly impact veteran safety and wellbeing

#### **Community Readiness & Resilience Implementer (CR2I), DoD**

- Advised senior military leadership on resilience, readiness, and system-level performance across installations
  - Coordinated cross-functional stakeholders to implement programs addressing risk, prevention, and operational continuity
  - Delivered strategic insights integrating behavioral health, organizational readiness, and community-level data
- 

### **Founder & Principal Consultant**

**Integrated Services & Solutions LLC | 2020 – Present**

- Led development of advanced governance and decision-support platforms (AGOS, RPLICE) designed to unify strategy, data, and execution across organizations
- Built tools enabling real-time visibility into organizational performance, resource allocation, and operational bottlenecks

- Supported public and private sector clients in aligning strategy with execution across healthcare, emergency management, and workforce systems
  - Developed AI-enabled systems to accelerate decision-making, improve accountability, and enhance cross-functional collaboration
- 

## EDUCATION

- **Doctor of Healthcare Administration (DHA) & Doctor of Business Administration (DBA)** – Virginia University of Lynchburg (2024)
  - **Master of Science, Implementation Science** – Dartmouth College, Geisel School of Medicine (*In Progress*)
  - **MBA, Leadership** – South University (2023)
  - **MS, Human Resource Management** – Walden University (2025)
  - **MS, Industrial-Organizational Psychology** – Walden University (2024)
  - **MS, Criminal Justice (Public Policy)** – Walden University (2024)
  - **BS, Healthcare Management** – South University (2021)
  - **Graduate Certificate, Business Analytics** – Texas A&M University (2023)
- 

## CERTIFICATIONS

- Certified Community Health Worker Instructor (Valid through 2027)
  - FEMA Emergency Management & Resilience Training (Ongoing)
  - Lean Six Sigma Green Belt
  - PMP (Pending)
- 

## MILITARY SERVICE

### U.S. Army, Warrant Officer (131A) | 2000–2020

- Three deployments to Afghanistan (34 months total)
  - Bronze Star Medal (x2), Meritorious Service Medal
  - Led targeting operations across tactical, operational, and strategic levels
-
