Ion Wave submission workflow (Eric does this)

1. Log in to Hargrave account at supplier.ionwave.net
 2. Open **RFP2026-04-650 → Line Items tab**
 3. For Line Item #1 (PROFESSIONAL DEVELOPMENT, TRAINING, AND CONSULTANT SERVICES):
 - Click the line item to open Package Attributes
 - Paste each response from `01-Package-Attributes-Q1-Q8.md` into the corresponding attribute field
 - Enter hourly/daily rate in the Line Item response field (from Document 8)
 4. Open **Attachments tab → Response Attachments**
 - Upload any signed forms Jamaica returns
 - Upload any company capability / past performance documents
 5. Open **Response Submission tab → click "Submit Response"**
 6. Screenshot the confirmation and send to Terry

Strategic note on pricing (per 5/27/2026 Eric ↔ Terry text exchange)

Terry's steer: "It's low but may get you in the door." Eric proposed "increase the range on the pricing sheet and put high end cost on the line item."

For an approved-vendor-list RFP like this one, getting ON the list matters more than maximizing margin. McKinney ISD is under no obligation to use any single vendor; the list is the gate to actual task orders over the 5-year contract window. Recommend:

- Keep catalog **range** wide (shows flexibility)
- Keep the **submitted line item** at the lower-mid range (competitive to land on the list)
- Reserve high-end rates for specialized consulting (leadership coaching, keynotes, data engineering consulting)

See `02-Pricing-Schedule-Documents8.md` for the specific recommended numbers.

Contract terms (verbatim from RFP reminder, locked in)

- **Initial period:** Date of Board Award → 5/17/2027
- **Renewals:** 4 × 1-year automatic renewals unless written non-renewal 30 days prior → potential relationship through **5/17/2031**
- **Termination for convenience:** McKinney ISD can terminate with 30 days written notice
- **Multi-vendor award:** District WILL award multiple vendors; not a sole-source decision
- **Evaluation:** Monthly (late submissions considered next cycle — do NOT miss 5/29 if you want the first-cycle evaluation)
