

The Collaborative Advocate Foundation (TCAF) / ThriveUp Academy

Briefing for Kevin Packer · InvesTech Consulting · 10:30 AM CT, Monday, May 18, 2026

Who we are in one sentence

TCAF is an IRS-determined 501(c)(3) public charity operating a **national, AI-orchestrated community-infrastructure platform** — 15 service surfaces under one roof — that connects under-served Americans to grant funding, workforce credentials, behavioral-health care, and reentry support, with **Travis County, Texas** as the implementation template.

President & Principal Investigator

Tony D. Flood Sr., President, 786 800 7020, tony@thrivingcommunitiesforall.com

Entity facts (primary-source verified)

	TCAF (non-profit)	ISS LLC (for-profit sister)
Legal name	The Collaborative Advocate Foundation	Integrated Services and Solutions LLC
EIN	41-3618003	87-2795417
SAM UEI	KDDVD1FGLW35	C7YDV3P8EHL7
CAGE	209N1	9VKK3
SAM status	ACTIVE through 2027-05-06	ACTIVE through 2027-03-30
501(c)(3)	Determined 01/14/2026 · public charity 170(b)(1)(A)(vi)	n/a
Eligible for	Federal · state · foundation grants	SBIR/STTR · GSA Schedule · for-profit set-asides

Two-entity strategy — TCAF takes all non-profit and federal grant work; ISS LLC is reserved for SBIR/STTR and for-profit set-asides only. Clean firewall. No co-mingling. We always know which entity submits.

What the platform actually does

Most early-stage non-profits ship slide decks. We shipped the product.

What's in production today (primary-source counts as of 2026-05-17)

- 271 PostgreSQL tables in one codebase, 211 front-end pages, 84 server roles, 15 public-facing service platforms, collaborative AI engines (Gemini, Claude, GPT-4o-mini, DeepSeek R1) with cross-engine synthesis and Retrieval-Augmented Generation engine grounded in our own commitments — not generic web crawlers
- 65 RFPs tracked across SAM.gov, Grants.gov, USASpending.gov, Candid, and curated foundation/corporate sources, with tier-weighted AI fit scoring
- 61 trade simulations (Electrical,

Plumbing, HVAC, Welding, Automotive, Software Engineering) × **15 lessons each = 90 lessons**, with industry-standard physics engines, registered-apprenticeship pathways, and AI tutors

The 15 service platforms

TCAF operates

Quintet we lead with — Talk Your Talk (107 languages: 89 spoken + 18 signed) · Civic Signal · LifeBridge · ThriveUp Academy · Whole-Person Health

The remaining ten — Sankofa Network, Black Maternal Health Network, Black Men's Health Hub, HerHealth Network, SafeCogniCare, Perfectly Different, Mission Transition (veteran C2C), Minority Center of Excellence, ISSS (Integrated Supports for Thriving Youth), RPLICE/BetterScience, SafeReport (FHIR + CDS-Hooks clinical AI). All 15 are externally reachable services, not slideware.

Six domains we serve

1. **Criminal Justice & Reentry** — RNR (Risk-Need-Responsivity), CBI (Cognitive-Behavioral Intervention), NRRC outcome reporting, family-

2. **Health Equity** — Whole-Person Health, maternal health, behavioral

3. **Behavioral Health** —

SafeReport (compliance-grade clinical AI), longitudinal screening (PHQ-9, GAD-7, C-SSRS, PCL-5,

4. **Workforce & Business** —

Mission Transition (veteran), Trade Skills Center of Excellence

5. **Education & Learning** — ThriveUp Academy: AI literacy, financial literacy, STEM, FAFSA,

6. **Community & Advocacy** —

Civic Signal, Community Voice (map-pinned community input !' AI clustering !' ecosystem routing !' #DATA storytelling)

What makes us fundable right now

- **Implementation Science is in the code, not the deck.** 39 CFIR constructs are wired into our Research Hub page; RE-AIM and RPLICE drive our evaluation; MAP-GAP CQI is a 1,705-line continuous-improvement engine. Funders see frameworks operationalized, not

Compliance-grade AI for clinical settings. FHIR + CDS Hooks + 0-PHI-egress + human-in-the-loop default-on. This is what HRSA/SAMHSA/CMS-style funders ask for and Foster Youth Transition Engine. 50-state policy comparator with statute citations, 4-domain AI risk engine, capability-token security on the Justice & Reentry stack — RNR + CBI + recidivism baselines + NRRC reporting in one production call. We already find funders again. The Grant Intelligence Engine scans daily and tier-scores fit. Funders evaluating a young org care whether the org can find them again next year. We can.

What I'd like from a partnership with InvesTech

1. **Discipline on federal fit.** I have a long pipeline. I need an outside read on which 3-5 opportunities are highest expected value for *us* ~~Give Federal grant to operational groups.~~ I've stood up the platform, IRS determination, SAM/UEI/CAGE, and the grant-tracking engine. I have not yet won a federal award. I want a ~~Bar~~ **Honest 'no's.** I will pass on bad-fit dollars. I expect the same ~~dis~~ **Elimination cycle pacing.** Smart Family Fund decision window is **November 2026**; St. David's is on a longer arc. I want help calibrating what's worth advancing in the meantime versus parking.

What I am NOT looking for

- ~~PS, I need pray's salt to replace anything that opens the platform explained to them three times~~

Companion documents you'll get with this brief

- **02-Technical-Architecture-Overview.md** — what's actually built, how it's organized, the security and ~~03-Opportunities-Currently-Tracking.md~~ — the pipeline as of 2026-05-18 so we don't burn the meeting on duplicates

Honest disclosure (Iron Rule)

• **St. David's Foundation (WAB2 cycle)** — LOI declined 2026-05-15 by Regan Gruber Moffitt, J.D. We remain a future target via the Community Health Grants cycle, but we do not cite St. David's as "in research."

• **Seaver Family Fund** — Pitch C submitted 2026-05-17. Decision window November 2026. We plan for six months of silence and do not count it in current revenue

• **City of Austin AEI** — Application submitted 2026-05-07 (three days ahead of deadline). Awaiting decision

• **Not federal awards yet.** SAM-active, IRS-determined, registered for two years. The pipeline is built; the wins are the next chapter — which is why I'm in this meeting.

— Terry D. Flood Sr., President
The Collaborative Advocate Foundation
