III. Progress Narrative

HUD YHSI Biannual Progress Report

Reporting Period: January 1 – June 30, 2001

Reporting Period Summary

During the first half of 2001, this YHSI-funded system recorded ****zero participants, zero referrals, and zero housing stability outcomes****. This null dataset reflects either the very early stage of system launch, a data capture gap, or a period in which eligible youth were not engaged through the tracked referral pathway.

****Key Finding:**** No baseline activity to report against HUD performance expectations for this period.

Referral Pathway Performance

- ****Total referrals:**** 0

- ****Resolution rate:**** Data unavailable (suppressed due to insufficient denominator)

- ****Average days to first contact:**** Data unavailable (suppressed due to insufficient denominator)

- **Referrals by status:** No activity recorded
- **Referrals by service type:** No activity recorded

Interpretation: Without referral volume, we cannot assess entry-point effectiveness, agency coordination, or speed to engagement. This metric set will begin to populate once the system begins receiving and documenting youth referrals.

Housing Stability Outcomes

- **Youth with 6-month housing stability data:** 0
- **Youth stably housed at 6 months:** 0
- **Stable housing rate:** Data unavailable (suppressed due to insufficient denominator)
- **Stability outcomes by housing status:** No data

Interpretation: No youth completed the 6-month follow-up window during this period. Housing stability outcomes will emerge once participants are enrolled and tracked through the full observation window.

Youth Leadership & Voice

- **Youth incorporated in system design/governance:** 0
- **Total youth voice activities/touchpoints:** 0

Interpretation: No formal youth voice or participatory activities were documented this period. This is a critical gap: YHSI systems are required to center youth lived experience in referral redesign, service improvement, and decision-making. Establishing youth advisory structures, feedback mechanisms, or co-design activities should be prioritized in the next period.

Challenges & Next Period Plan

Primary Challenge: The absence of participant and referral data signals either a startup phase in which intake processes are not yet live, a data infrastructure gap, or a disconnect between field operations and this reporting system.

Recommended Immediate Actions:

1. **Data Infrastructure Audit** — Verify that referral intake, participant enrollment, and 6-month follow-up tracking are operational and linked to this reporting system. Confirm staff are documenting youth contacts in real time.
2. **Youth Voice Establishment** — Establish a youth advisory board or feedback circle before the end of Q3 2001. Even in early launch, youth leadership strengthens trust, design, and retention.
3. **Referral Partnership Activation** — Confirm active partnerships with schools, runaway shelters, foster care agencies, and justice systems. Schedule joint training and kickoff meetings to establish steady referral flow.
4. **Baseline Data Collection** — By the end of the next biannual period, this system should have documented at

least 5–10 youth in referral and/or enrollment to allow rate-based reporting (referral resolution, time-to-contact, housing stability).

****Next Reporting Period (July 1 – December 31, 2001) Priorities:****

- Achieve measurable referral volume and first-contact completion
- Launch youth voice structures and document input
- Report baseline housing stability outcomes for any youth reaching the 6-month mark
- Clarify data gaps and ensure real-time capture processes are live

Report generated from HUD YHSI CPD-2600-DC-0035 metrics. Data suppression applied per HUD protocol to protect small cohorts. Counts <5 and rates with denominator <5 are not disclosed.
