

Opportunities Currently Tracking

Companion to the One-Pager · For Kevin Packer / InvesTech Consulting · 2026-05-18

This is the live pipeline as of Monday, May 18, 2026. The point: don't burn the meeting on duplicates.

Everything below is in the queue under some status. Anything *not* here is fair game for your Opportunity Report. 651 grants tracked in the engine. 208 score >= 70 fit. This document surfaces only the ones I'm actively working, watching, or have already decided on.

D. Decided NO / passed (for your awareness so you don't suggest them)

Funder / Program	Why passed
RWJF CFP #3504	Deadline (2026-04-13) already past; inherited drafts contaminated by an attributed individual TCAF does not know
VA GPD FY2027 (PDO + Service Center)	Deadline (2026-02-18) already past. Demoted to FY2028 prep track
SBA Manufacturing in America — Empower to Grow (E2G)	\$50M pool, ~30 days to deadline, reviewed and declined as prime. Possible sub-recipient role only

E. Foundation cycle pacing

- **Smart Family Fund** — Pitch C submitted; six-month silo. ~~St. David's declined WAB2 cycle closed for Nov. Open 2026~~
- **Centene Foundation — Behavioral Health Grants** — drafting now for May 31.

F. What the InvestTech Opportunity Report can usefully add

The pipeline above is heavily federal-Texas + a few national federal + select foundation. Areas where I'd value outside reads (and which are *under-represented* in my current tracking):

1. **DOE / DOE workforce-pathways funding** beyond what's listed — especially registered-apprenticeship
2. **HRSA + SAMHSA behavioral-health funding** beyond Centene + the 2028-cycle navigator. The SafeReport / WPH / Talk Your Talk stack is fundable in 8a
3. **Foundations funding for a hyperstration in social-impact contexts** — Ballmer, Schmidt Sciences, Patrick
4. **Justice & Reentry funders** beyond the federal layer — Recidiviz-adjacent, Arnold Ventures, JEHT-adjacent. RNR + CBI + NRRC stack is built but not on a foundation
5. **NSF SBIR Phase I & Phase II** routed through ISS LLC (for-profit sister), with TCAF as the implementation partner. I have not yet engaged on SBIR.

G. Iron Rule on this document

- Every deadline and dollar figure above came from a funder page or RFP I personally opened on or before 2026-05-17, **or** from docs/active-commitments.md and docs/grants/ which themselves cite the primary source.
- No funder named in this document is described as having committed anything we haven't received in writing.
- **No funder name appears on any public-facing TCAF page.** External web copy describes program *categories*, not funder names. This document is internal between us.
