

Opportunities Currently Tracking

Companion to the One-Pager · For Kevin Packer / InvesTech Consulting · Updated 2026-05-18 (post-call reconciliation)

This is the live pipeline as of Monday, May 18, 2026, **updated after Kevin Packer's 3:44 PM follow-up note** integrating his InvesTech Opportunity Report into our tracking. Lanes are now labeled by submitting entity (TCAF or ISS LLC) per the agreed two-entity discipline.

Scope reminder: this document covers opportunities relevant to the TCAF / ThriveUp main platform only. Shield (DOD counter-UAS, ISS LLC) and HerHealth product-side SBIR work live in separate codebases and are tracked in their respective project memories. 651 grants tracked in the engine. 208 score "e70 fit. This document surfaces only the ones I'm actively working, watching, or have already decided on.

A. Submitted — decision pending

Funder / Program	Submitted	Decision window	Status
City of Austin — Equity-Based Preservation Equity Investment (AEI)	2026-05-07 (3 days ahead of deadline)	Per City schedule	Submitted via aei.grantplatform.com; confirmation received from equity@austintexas.gov
Smart Family Fund — Pitch C	2026-05-17	November 2026	6-month silence expected. Not counted in any current revenue forecast

B. Actively in progress (drafting / due "d 60 days)

Entity	Funder / Program	Deadline	Lane	Notes
TCAF	Centene Foundation — Behavioral Health Community Grants (Spring 2026)	2026-05-31	Behavioral health, multilingual crisis routing	Drafting concept now: WPH + SafeReport (CDS) + Talk Your Talk (LEP crisis routing) + Sankofa + Mission Transition + LifeBridge + RPLICE eval
TCAF	VA SSG Fox FY27 — Suicide Prevention Grant Program	2026-06-12 at 4:59 PM ET	Veteran behavioral health	Year 1 = Central TX only · \$400K–\$600K ask · TCAF prime via Mission Transition + WPH. Builds and pages live on vetmissiontransition.com , not on the main platform. Funder brief at docs/grants/ssg-fox-fy27/00-funder-brief.md
TCAF	NIH PAR-25-144 — D&I Research (R01, clinical-trial optional) (BetterScience lane, added 2026-05-18 per Kevin)	2026-06-05 then 2026-10-05	Implementation science	Strongest single fit Kevin surfaced. 39 CFIR constructs operationalized in research-hub.tsx, RPLICE bridge, MAP-GAP CQI (1,705 lines), NRRC scoring rubrics. R21 companion (PAR-25-143) and R03 companion (PAR-25-233) are lighter-lift alternatives. De-conflict with PA-25-302 below before drafting.

TCAF	NIH R03 PA-25-302 (NIMHD/NIMH NOSI on multilingual behavioral-health screening)	2026-06-16	Behavioral health research	Whole-Person MH + Talk Your Talk + LifeBridge alignment. Topic-map against PAR-25-144 first — Kevin flagged possible overlap.
TCAF	NSF 26-508 — TechAccess: AI-Ready America (State/Territory Coordination Hub)	2026-06-16	AI literacy, workforce, equity	Drafting. ThriveUp Academy spine. Fit score 100
TCAF	Episcopal Health Foundation Cycle 2 (LOI opens 2026-06-23, added per Kevin)	LOI opens 2026-06-23	Thriving Communities	WPH + Sankofa + Talk Your Talk + LifeBridge fit. Verify first: Travis County coverage inside Diocese of Texas service area before investing drafting time.
TCAF	OSERS/OSEP — Expanding Career Pathways and Workforce Readiness of Special-Education Youth	2026-07-13	Special-ed workforce	Fit 77. Foster-Youth Transition Engine + Trade Sims pairing
TCAF	Promise Neighborhoods (ED-GRANT-26-054, 84.215N)	2026-08-06	Place-based youth	Federal prime. Pairs Academy + Trade Sims + foster-youth supports. & p two duplicate DB rows — dedupe in progress
TCAF	Lowe's Gable CBO	Window 2026-08-01 ! 2026-09-03	Trade Sims pilot funder	Fit 85. Identified

C. Watching / parking

Funder / Program	Window	Why we're watching
Texas Workforce Commission — Skills Development Fund (SDF)	Rolling	Needs Austin Community College (ACC) co-applicant; conversations in flight
Home Depot Path to Pro (P2P)	Annual	Trade Sims direct fit
St. David's Foundation — Catalyzing Community-Led Change (CCLC) (added per Kevin)	Opens 2026-05-27	TACTICAL HOLD. Different program from WAB2, but applying 12 days after WAB2 LOI decline may read as not having processed feedback. Plan: send WAB2 feedback-request first (docs/grants/submitted/StDavids-WAB2-Feedback-Request-DRAFT.md), then re-evaluate CCLC for next cycle. Override only on direct relationship signal.
HRSA — Navigator Emergency Department Diversion Models for Non-Urgent Mental Health	2028-01-07	Long arc but exact fit for WPH + SafeReport + LifeBridge crisis routing
CDC/NIH Community-Based Participatory Research to Advance Data and Practice Transformation	2028-11-16	Long arc; RPLICE + research-hub alignment
St. David's Foundation — Community Health Grants (next cycle)	Annual	WAB2 LOI declined 2026-05-15 (Regan Gruber Moffitt, J.D.). Re-approach through Community Health Grants only, not WAB2

D. Decided NO / passed (for your awareness so

you don't suggest them)

Funder / Program	Why passed
RWJF CFP #3504	Deadline (2026-04-13) already past; inherited drafts contaminated by an attributed individual TCAF does not know
VA GPD FY2027 (PDO + Service Center)	Deadline (2026-02-18) already past. Demoted to FY2028 prep track
SBA Manufacturing in America — Empower to Grow (E2G)	\$50M pool, ~30 days to deadline, reviewed and declined as prime. Possible sub-recipient role only
PCORI Broad Pragmatic Studies (removed by Kevin 2026-05-18)	Requires an RCT, conflicts with TCAF's preference for less clinical-trial work
INF-2026-0180 — City of Houston Health Dept / CRNP Housing Support Services (passed 2026-05-18)	DOJ-BJA pass-through, ~\$90K (40 participants × \$2,250). 3 independent blockers: (1) requires 3 years past performance providing housing support to justice-impacted population — TCAF 501(c)(3) determined 01/14/2026; (2) vendor must operate within Houston/Harris County — TCAF is Travis County; (3) cost-reimbursement check-writing model for rent/deposits/ utilities, not a platform procurement. Bid was due ~3 hrs from review window.

E. Foundation cycle pacing

- **Smart Family Fund** — Pitch C submitted; six-month silo cycle ended, MAB2 cycle closed for Nov, Dec 2026 by St. David's. Health Grants next cycle is the re-entry point. Never de-identified. **Centers Foundation for Community Grants** — drafting now for May 31.

F. Gap-scan funders to dig (priority ordered, post-call)

Kevin's gap scan returned names in five lanes. **Priority ordered by fit to the TCAF / ThriveUp main platform stack** — Kevin's deep verification still required on each before they enter Section B.

F1. Justice & Reentry foundations (HIGHEST EV — Kevin's pick too)

Arnold Ventures · Just Trust (Pew Public Safety spinout) · Joyce Foundation · Open Philanthropy Criminal Justice · Ford Foundation US Programs · W. K. Kellogg Foundation youth justice

Why first: RNR + CBI + NRRC + recidivism baselines + family-visitation tracking + justice-command-center .tsx (3,482 lines) is built and shipped on this platform. No competitor at our stage has this depth, and we have not yet mapped any of these funders to a cycle.

F2. DOL workforce / apprenticeship intermediary funding

DOL Apprenticeship Building America (annual) · DOL Strengthening Community Colleges Training Grants · DOL Reentry Employment Opportunities (formerly Pathway Home) · DOL Workforce Pathways for Youth · ETA Sector Partnership grants

Why: Trade Sims (6 trades × 15 lessons = 90 lessons) + registered-apprenticeship pathway routing + apprenticeship-tracker .tsx (1,538 lines) maps cleanly to ABA intermediary structure. Reentry

Employment Opportunities cross-funds Justice + Workforce lanes.

F3. HRSA / SAMHSA behavioral-health stack (beyond Centene)

HRSA Reentry Care Coordination · HRSA Behavioral Health Workforce Education and Training (BHWET) · SAMHSA Project AWARE · SAMHSA Garrett Lee Smith Youth Suicide Prevention · HRSA Rural Communities Opioid Response Program (RCORP)

Why: Talk Your Talk + SafeReport (PHIR + CDS-Hooks + O-PHI-egress) + longitudinal screening (PHQ-9, GAD-7, C-SSRS, PCL-5, ACES) is fundable across all five.

F4. AI-orchestration foundations

Schmidt Sciences (AI 2050, AI Safety, Polymath) · Patrick J. McGovern Foundation (AI for Civic Innovation, AI for the Workforce) · Knight Foundation civic tech · Mozilla Foundation Trustworthy AI · Ballmer Group (economic mobility + criminal justice priorities)

Why: 4-engine orchestration (not wrapping), 88-chunk grounded RAG, dialect-aware translation, HITL-default-on, Trade Sims AI tutor (Socratic vs ensemble modes). This is the pitch for an AI-in-civic-tech funder.

F5. NSF SBIR via ISS LLC (TCAF as implementation partner)

Hold. Kevin reports NSF is still not accepting Project Pitches as of last week per SBA SeedFund Week. Reopening imminent per their messaging. Do not draft until new solicitation hits.

G. Iron Rule on this document

- Every deadline and dollar figure above came from a funder page or RFP I personally opened on or before 2026-05-17, **or** from docs/active-commitments.md and docs/grants/ which themselves cite the primary sources added 2026-05-18 from Kevin Packer's note (NIH PAR-25-144, Episcopal Health Cycle 2, St. David's CCLC, all F1–F5 gap-scan names) carry an implicit "Kevin-sourced, primary-source verify before drafting" flag. Kevin's note itself said he has not yet verified award levels, current open status, or fit nuances for the gap-scan items named in this document is described as having committed anything we haven't received in writing.
- **No funder name appears on any public-facing TCAF page.** External web copy describes program *categories*, not funder names. This document is internal between Terry, Kevin, and the TCAF team.

H. Out of scope for this site (handled in other codebases)

Tracked only so they don't get reintroduced here:

- **Shield (DOD counter-UAS, all 5 R1/R2 topics)** — ISS LLC, separate codebase. Kevin to drive directly with HerHealth LLC.
- **HerHealth NIH SBIR Omnibus FY26 (opens 2026-06-01, deadline 2026-09-08)** — ISS LLC + HerHealth product codebase (NETWORK_SECRET_HERHEALTH site). Coordinate with the NIH.
- **Any HRSA or Oak Ridge tech transfer licenses** or "CBS feature" past-performance claims — not

verified in this site's records. Primary-source verify in the HerHealth product memory before either anchors a federal opportunity is Ketia asked to bid.
— Jerry D. Flood Sr., President, ICAF - 2026-05-18
(post-call reconciliation)
